CURRICULA EN SEE FISC NOTE LF EX See Note Page 1 of 1  
 Provides relative to required physical activity for students

The proposed legislation requires each public school that includes kindergarten through eight to provide at least 30 minutes each school day of quality moderate to vigorous physical activity for students. In addition, each school board shall establish a health advisory council to advise the board on physical activity for students, physical and health education, nutrition, and overall health. The council members shall be appointed by the school board and shall include parents of students and individuals representing the community. All members shall serve without compensation.

This Act shall become effective on July 1, 2009.

**EXPENDITURE EXPLANATION**

There is no anticipated direct material effect on local governmental expenditures as a result of this measure. The members of the health advisory council shall serve without compensation, therefore, there will be no increase in local school board expenditures.

In addition, grades K-6 are already required to provide 30 minutes of quality moderate to vigorous physical activity for students each day. Currently, grades 7 and 8 are required to have 150 minutes per week of physical education. The proposed legislation requires 30 minutes of quality moderate to vigorous physical activity for 7th and 8th grade students each day. If schools are not currently allowing for 30 minutes each day, they will have to change the weekly schedule for those students. There will be no increase in expenditures to rearrange the schedule for students in grades 7 and 8.

**REVENUE EXPLANATION**

There is no anticipated direct material effect on governmental revenues as a result of this measure.
